CONTENTS

NUMBER 1, JANUARY 1993

1 The effect of some α_2-adrenoceptor agonists and antagonists on gastrointestinal transit in mice: Influence of morphine, castor oil and glucose
B. H. Ali and A. A. Bashir

7 A simple method for estimating 24 h urinary sodium and potassium excretion from second morning voiding urine specimen in adults
T. Kawasaki, K. Itoh, K. Uezono and H. Sasaki

15 Discrepancy between renin mRNA and plasma renin level in angiotensin-converting enzyme inhibitor-treated rats
R. Morishita, J. Higaki, M. Nagano, F. Nakamura, N. Tomita, Y. Zhao, H. Mikami, M. Miyazaki and T. Ogihara

21 A possible interpretation for difference in neostigmine-induced changes of spontaneous activities and evoked muscle potentials between rat medial gastrocnemius and soleus muscles
I. Uramoto, K. Watanabe and T. Totsuka

27 Sensitivity of propranolol elimination to hypoxia in the isolated perfused rat liver preparation
S. L. Elliot, D. J. Morgan, P. W. Angus, H. Ghabrial and R. A. Smallwood

35 Effects of nifedipine and Bay-K-8644 on the release of catecholamines from the dog adrenal gland in response to splanchnic nerve stimulation
A. Takeuchi, T. Kimura and S. Satoh

41 Renin and prorenin in reproductive tissues during gestation in pigs and cattle
A. Hagemann, V. Dantzer, A. H. Nielsen and K. Poulsen

51 Effects of anaesthesia on the removal from plasma of intravenously injected chylomicron-like lipid emulsions in rats and mice
B-C. Mortimer, Y. Umeda, C. L. Elsegood and T. G. Redgrave

59 Analgesic activity of certain flavone derivatives: A structure–activity study
P. Thirugnanasambantham, S. Viswanathan, S. Ramaswamy, V. Krishnamurty, C. Mythirayee and L. Kameswaran

65 Effect of environmental and hypothalamic factors on thyrotropin secretion in the hypothyroid rat
Y-L. Dou and F. Tang

NUMBER 2, FEBRUARY 1993

71 Cerebrovascular protection by sequential bilateral carotid artery ligation in aged spontaneously hypertensive rats
R. Horie, M. Mano and K. Omura

77 Diabetic rat aorta responsiveness to D600 and nifedipine
N. N. Orie and C. P. Aloamaka

83 Circulating levels of active, total and inactive renin (prorenin), angiotensin I and angiotensinogen in carbon tetrachloride-treated rats
C. Cruz, M. E. Ibarra-Rubio and J. Pedraza-Chaverrí

89 Effects of adenosine and its analogues on actin polymerization in human polymorphonuclear leucocytes
S. Tsuruta, S. Ito and H. Mikawa

95 Morphine and morphiceptin increase the threshold for epinephrine-induced cardiac arrhythmias in the rat through brain mu opioid receptors
S. W. Rabkin

103 Effects of AE0047 on renal haemodynamics and function in anaesthetized dogs
K. Hayashi, T. Uchida, H. Kido, H. Shinyama and M. Watanabe

113 Acute effect of physiological concentrations of vasopressin on rat renal function
S. L. Carney, A. H. B. Gillies and C. D. Ray

121 Effects of cortisol on blood pressure and salt preference in normal humans
K. S. Wong, P. M. Williamson, M. A. Brown, V. C. Zammit, D. A. Denton and J. A. Whitworth

127 α- and β-adrenoceptor agonist activity in the venom of the Australian huntsman spiders, *Delena cancerides* and *Isopeda montana*
N. V. Korszniak and D. F. Story

NUMBER 3, MARCH 1993

135 The angiotensin-converting enzyme inhibitor, perindopril, prevents cardiac hypertrophy in low-renin hypertensive rats
F. Nakamura, M. Nagano, J. Higaki, K. Higashimori, R. Morishita, H. Mikami and T. Ogihara

141 The inhibition of nitric oxide-mediated relaxations in rat aorta and anococcygeus muscle by diphenylene iodonium
M. J. Rand and C. G. Li

149 Role of sodium-potassium ATPase in phosphate transport by the everted sacs of mouse intestine
P. L. Mary and J. P. Rao

155 Circadian variations of blood pressure and pulse rate in essential hypertensives with diabetes mellitus
K. Matsumura, I. Abe, T. Tsuchihashi, K. Kobayashi and M. Fujishima

161 Decreased norepinephrine content in the medulla oblongata in severely hypertensive rats
T. Takami, H. Ito and T. Suzuki

169 The effects of pertussis toxin on vasoconstrictor and vasodilator agents in the pithed rat may not be an indicator of G-protein receptor coupling
M. Costa and H. Majewski

177 Neuroleptics induce penile erection in the rabbit
H. Naganuma, T. Egashira and I. Fujii

185 Biliary hyperpressure in rat extrahepatic cholestasis alters horseradish peroxidase biliary excretion
M. P. Panozzo, C. Fabris, D. Basso, G. Del Favero, A. Infantino, A. Cecchetto, M. Plebani and R. Naccarato

193 A study on the role of cholinergic and gamma amino butyric acid systems in the anti-nociceptive effect of gossypin
S. Viswanathan, P. Thirugnanasambantham, S. Ramaswamy and J. S. Bapna

Rapid Communication

197 Novel microscopy using fibre optic confocal imaging and its suitability for subsurface blood vessel imaging *in vivo*
P. M. Delaney, M. R. Harris and R. G. King

199 Corrigenda

NUMBER 4, APRIL 1993

201 Investigation of class I anti-arrhythmic drug actions on guinea-pig cardiac mitochondrial lactate dehydrogenase activity
N. Dzimiri and A. A. Almotrefi

207 Effects of aldose reductase inhibition with epalrestat on diabetes-induced changes in rat isolated atria
R. J. Booth and W. C. Hodgson

215 The effect of cromakalim on the electrical properties of and [$^{86}Rb^+$] efflux from normal and hypertrophied rat bladder
K. E. Creed and A. Malmgren

223 The novel marine natural product plocamadiene A causes histamine release from mast cells of the guinea-pig and rat *in vitro*
S. G. Thomas and A. A. Beveridge

231 Identification and characterization of an amidating enzyme in ovine heart
R. A. Lew and A. I. Smith

239 Relaxant effects of brain natriuretic peptide on guinea-pig tracheal smooth muscle
K. Takagi and N. Araki

245 The effect of atrial natriuretic peptide infusion on renal haemodynamics and plasma lipoproteins in puromycin aminonucleoside nephrosis in rats
M. J. Radin and S. A. McCune

253 Angiotensin converting enzyme inhibitor, captopril, inhibits cardiac hypertrophy without changing collagen types and concentration in spontaneously hypertensive rats
H. Kuzuo, M. Honda, Y. Ishinaga, S. Morioka, K. Tanaka, T. Kuramochi, A. M. Mansoor, Y. Yamori and K. Moriyama

261 Effects of reserpine on the content and uptake of dopamine and noradrenaline in rabbit arteries
K. Okada, K. Shinozuka, K. Shimoura, Y. Kobayashi, K. Hattori and A. Nakase

269 Oxygen–haemoglobin dissociation curve in hypoxic rats of first or second generation
U. Quatrini, A. Licciardi and G. Morici

275 Letters to the Editor

NUMBER 5, MAY 1993

SHORT COMMUNICATIONS FROM THE HIGH BLOOD PRESSURE RESEARCH COUNCIL OF AUSTRALIA

277 Foreword

279 Chromosome 17q23: A locus for cardiovascular disease
B. J. Morris

283 Species differences in binding of submandibular nuclear proteins to renin promoter DNA
J. A. Loudon, A. Fukamizu, K. Murakami and B. J. Morris

289 Transmembrane *in vitro* and *in vivo* sodium–lithium countertransport in New Zealand Maori
T. J. B. Maling, K. van Wissen and R. W. L. Siebers

292 Cortisol production by aldosterone-producing adenomas *in vitro*
M. Stowasser, T. J. Tunny, S. A. Klemm and R. D. Gordon

296 Evidence that primary aldosteronism may not be uncommon: 12% incidence among antihypertensive drug trial volunteers
R. D. Gordon, M. D. Ziesak, T. J. Tunny, M. Stowasser and S. A. Klemm

299 Naloxone stimulation of ACTH secretion during petrosal sinus sampling in Cushing's syndrome
D. J. Torpy, R. V. Jackson, J. E. Grice, G. I. Hockings, C. R. Strakosch and D. J. Topliss

303 Detection of renin mRNA in aldosterone-producing adenomas by polymerase chain reaction
S. Klemm, F. Pinet, N. Rioual-Caroff, T. Tunny, P. Corvol and R. D. Gordon

306 Angiotensin-responsive aldosterone-producing adenomas: Postoperative disappearance of aldosterone response to angiotensin
T. J. Tunny, S. A. Klemm, M. Stowasser and R. D. Gordon

310 Humoral determinants of Na^+ excretion after intravenous NaCl loading in normal volunteers
G. S. Stokes, H. J. Johnston and J. C. Monaghan

313 Metabolism of uridine in expanded extracellular volume states
Q. Hasnain, G. Macdonald and G. T. Haupert

317 Dissociation of blood pressure and albuminuria in normal subjects infused with angiotensin II and noradrenaline
N. Cohen, P. Phillips, R. Gilbert and G. Jerums

320 Angiotensin-converting enzyme and regulation of blood pressure in a large Australian family
K. M. Summers, J. A. West, P. R. Huggard and M. J. West

324 Age-dependent alterations in vascular smooth muscle cell responsiveness to platelet-derived growth factor in genetic hypertension
J. Saltis, A. Agrotis and A. Bobik

327 Vascular smooth muscle cell proliferation in SHR and WKY rats: Evidence for specific differences in growth inhibitory regulatory mechanisms
A. Agrotis, P. J. Bray, J. Saltis and A. Bobik

331 A low affinity, low molecular weight endothelin-A receptor present in neonatal rat heart
E. A. Woodcock, S. L. Land and R. K. Andrews

335 Stimulation of phosphatidylinositol turnover in adult rat left atria does not involve release of inositol(1,4,5)*tris*phosphate
K. E. Anderson, D. Myers and E. A. Woodcock

339 Single point estimation of platelet angiotensin II receptor number may not be valid screening test for pregnancy-induced hypertension
Y. Yang, M. A. Pawlak, G. J. Macdonald and K. A. Duggan

343 Accurate determination of the size of the first intron deletion in the renin gene of SHR from an Australian colony
D. Z-M. Wang, C. Gregorio-King, L. Aykut, A. Wilks, T. O. Morgan and R. Di Nicolantonio

346 Altered blood pressure, renal tubular function and levels of circulating inhibitors of Na–K-ATPase in mature SHR exposed to low salt diet in the perinatal period
R. Di Nicolantonio, L. L. Walker, P. J. Harris, A. Aminian, W. R. Adam and T. O. Morgan

348 Abnormality of the glomerular angiotensin II receptor in experimental diabetic nephropathy
M. Makarious, K. Duggan, J. A. Charlesworth and G. J. Macdonald

351 Renal sympathetic baroreflex effects of angiotensin II infusions into the rostral ventrolateral medulla of the rabbit
T. Saigusa and G. A. Head

355 Neurogenic vasodilatation in isolated perfused segments of rabbit jejunal artery
M. La and M. J. Rand

359 Stereological studies on mesenteric resistance artery structure in New Zealand genetically hypertensive and control rats
J. M. Ledingham and J. A. Millar

362 Effects of cilazapril on the structure of mesenteric resistance arteries of New Zealand genetically hypertensive and normotensive control rats
J. M. Ledingham, E. L. Phelan and J. A. Millar

365 The dopamine prodrug, gludopa, decreases both renal and extrarenal noradrenaline spillover in conscious rabbits
Z-Q. Wang, K. Shimizu, D. Way, J. Secombe and B. P. McGrath

369 Effects of enalaprilat on sympathetic activity and metabolism of exercising muscles in rabbit
K. Shimizu, Z-Q. Wang, D. J. Way, J. Palmos and B. P. McGrath

373 Enalaprilat restores sensitivity of baroreflex control of renal and total noradrenaline spillover in heart failure rabbit
T. Noshiro, D. Way, Y. Miura and B. P. McGrath

377 Structural influences on resistance in the hindlimb vascular bed of the renal hypertensive rabbit
J. A. Neilson and M. J. West

380 Vasopressin compensates for acute loss of sympathetic pressor tone in spontaneously hypertensive rats
L. T. Jablonskis and P. R. C. Howe

384 Metabolism studies of uridine in rats with DOCA-salt hypertension and on high sodium diet
Q. Hasnain and G. Macdonald

388 Effects of an orally active vasopressin V_1 receptor antagonist
L. M. Burrell, P. A. Phillips, J. Stephenson, J. Risvanis, A-M. Hutchins and C. I. Johnston

392 Ageing and blood pressure regulation: Dose–response relationships for angiotensin, blood pressure, atrial natriuretic peptide and aldosterone in normal subjects of varying ages
W. L. Finn, T. J. Tunny, S. A. Klemm, S. J. Ryan and R. D. Gordon

395 Effect of positive family history of hypertension on the blood pressure and catecholamine responses to a 6 hour adrenaline infusion
A. W. Bachmann, D. M. Ballantine and R. D. Gordon

NUMBER 6, JUNE 1993

399 Effects of diabetes on disposition and hepatic handling of cefmetazole in rats
C. Barrientos, P. González, M. J. Tuñón, J. M. Culebras and J. González-Gallego

405 Different responses to acetylcholine in the presence of nitric oxide inhibitor in rat aortae and mesenteric arteries
C-C. Wu, S-J. Chen and M-H. Yen

413 Effects of nitro-L-arginine on endothelium-dependent relaxation of canine cerebral arteries
F. Ohta, Y. Kobayashi, K. Shinozuka, K. Shimoura, K. Hattori and K. Moritake

421 Spectrophotometric study of α-adrenoceptors affecting microcirculation of rat skin
E. Kakizoe, Y. Kobayashi, K. Shimoura, K. Hattori and J. Jidoi

429 Do angiotensin converting enzyme inhibitors limit myocardial infarct size?
T. Miki, T. Miura, K. Shimamoto, K. Urabe, J. Sakamoto and O. Iimura

435 Plasma from normal pregnant women alters the reactivity of rabbit aortic smooth muscle with functional endothelium
M. Ezimokhai, C. P. Aloamaka, T. Cherian, M. Agarwal and J. Morrison

443 Monoclonal antibodies to arginine vasopressin receptor bind to liver, kidney and pituitary membranes
D. Trinder, V. Mooser, P. A. Phillips, A. I. Smith, D. Casley and C. I. Johnston

451 Mediators of nicotine-induced relaxations of the rat gastric fundus
A. McLaren, C. G. Li and M. J. Rand

459 Letters to the Editor

463 Obituary: Professor A. Doyle

465 Obituary: Professor R. Vandongen

NUMBER 7/8, JULY/AUGUST 1993

467 Evidence that imidazol(id)ine- and sulphonylurea-based antagonists of cromakalim act at different sites in the rat thoracic aorta
J. L. Challinor and G. A. McPherson

477 The intrarenal site of calcitonin gene-related peptide degradation in the isolated perfused rat kidney
C. Rubinstein, D. R. Fletcher and A. Shulkes

483 Five year prospective study on blood pressure and maximal oxygen uptake
S. Sawada, H. Tanaka, M. Funakoshi, M. Shindo, S. Kono and T. Ishiko

489 Haemodynamic and humoral consequences of chronic infusion of vasopressin in conscious rats
T. Tsuchihashi, Y. Takata, Y. Nakao, M. Tominaga, S. Takishita, K. Kobayashi, I. Abe and M. Fujishima

497 Anti-arrhythmic effects of a new calcium antagonist, monotepil, AJ-2615, in experimental arrhythmic models
T. Yamamoto, K. Hosoki and T. Karasawa

501 Effects of peptide histidine isoleucine on pancreatic exocrine secretion in anaesthetized dogs
K. Iwatsuki, L.-M. Ren and S. Chiba

509 Proliferative effect of mevalonate metabolites other than isoprenoids on cultured vascular smooth muscle cells
M. Sawamura, N. Li, Y. Nara and Y. Yamori

515 Analysis of secretion and expression of platelet-derived growth factor in cultured endothelial cells from stroke-prone spontaneously hypertensive rat
K. Iihara, M. Sasahara, Y. Saeki, N. Hashimoto, H. Kikuchi and F. Hazama

523 Characteristic localization of α_1- and α_2-adrenoceptors in the human kidney
K. Minamisawa, S. Umemura, N. Hirawa, S. Hayashi, Y. Toya, Y. Ishikawa, G. Yasuda and M. Ishii

527 Identification of adenosine receptors in human spermatozoa
M-R. Shen, J. Linden, S-S. Chen and S-N. Wu

535 Atrial and brain natriuretic peptide response to exercise in patients with ischaemic heart disease
S. Nicholson, M. Richards, E. Espiner, G. Nicholls and T. Yandle

541 **Book Reviews**

NUMBER 9, SEPTEMBER 1993

543 The inhibitory effect of SA3443, a novel cyclic disulfide compound, on alpha-naphthyl isothiocyanate-induced intrahepatic cholestasis in rats
M. Tanaka, K. Nakata and S. Mita

549 Use of a computerized postural sway measurement system for assessing workers exposed to manganese
S. E. Chia, J. Goh, G. Lee, S. C. Foo, S. L. Gan, K. Bose and J. Jeyaratnam

555 Sheep hypothalamus contains a non-angiotensin ligand for type 1 and type 2 angiotensin II receptors
J. Blasioli, A. Kladis, I. J. Clarke and D. J. Campbell

563 Demonstration of defective glucose uptake and storage in erythrocytes from non-insulin dependent diabetic patients and effects of metformin
R. G. Yoa, J. R. Rapin, N. F. Wiernsperger, A. Martinand and I. Belleville

569 Effect of arginine vasopressin and parathyroid hormone-related protein on renal function in the ovine foetus
R. S. C. Horne, R. J. MacIsaac, K. M. Moritz, K. Tangalakis and E. M. Wintour

579 Effect of xanthine derivatives on chemotactic polypeptide-induced superoxide and enzyme release from human polymorphonuclear leucocytes
T. Hirano, M. Ando, K. Suzuki, H. Furui, K. Miyamoto and K. Takagi

587 Intralymphocytic free calcium and magnesium in stroke-prone spontaneously hypertensive rats and effects of blood pressure and various antihypertensive agents
M. Adachi, Y. Nara, M. Mano, K. Ikeda, R. Horie and Y. Yamori

595 Effect of nicorandil on post-ischaemic contractile dysfunction in the heart: Roles of its ATP-sensitive K^+ channel opening property and nitrate property
T. Iwamoto, T. Miura, K. Urabe, M. Itoya, K. Shimamoto and O. Iimura

603 Release of a substance from the human placenta having digoxin-like immunoreactivity
A. Di Grande, A. L. A. Boura, M. A. Read et al.

NUMBER 10, OCTOBER 1993

609 A_1- and A_2-purinoceptors in the guinea-pig uterus
J. M. Haynes and J. N. Pennefather

619 Effect of breathing pattern on blood pressure and heart rate oscillations in humans
D. Laude, M. Goldman, P. Escourrou and J-L. Elghozi

627 11β-Hydroxysteroid dehydrogenase activity in mesenteric arteries of spontaneously hypertensive rats
Y. Takeda, T. Yoneda, I. Miyamori, P. Gathiram and R. Takeda

633 Effects of hydroxocobalamin and haemoglobin on NO-mediated relaxations in the rat anococcygeus muscle
C. G. Li and M. J. Rand

641 Effects of verapamil and diltiazem on dopamine release in the central nervous system of spontaneously hypertensive rats
K. Tsuda, S. Tsuda, M. Goldstein and Y. Masuyama

647 Influence of somatostatin analogue (SMS 201-995, octreotide) on blood pressure in adrenocorticotrophin (ACTH) treated rats: Role of hyperinsulinaemia in ACTH hypertension
M. Li, K-S. Wong and J. A. Whitworth

655 Effects of naftidrofuryl on isolated perfused kidneys of spontaneously hypertensive rats
B. L. Zhang, K. L. Liu, J. Sacquet, N. Wiernsperger, D. Benzoni and J. Sassard

663 Effects of high salt intake on control of hindlimb vascular resistance by arterial baroreflex and vagal afferents in spontaneously hypertensive rats
S. Hoka, A. Takeshita, K. Yamamoto and N. Ito

671 Corrigendum

NUMBER 11, NOVEMBER 1993

673 Preventive effect of a new calcium antagonist, monatepil, on drug-induced ischaemic electrocardiographic changes in rats
T. Yamamoto, K. Nakatsuji, K. Hosoki and T. Karasawa

679 Blood pressure effects of thromboxane A_2 blockade in spontaneously hypertensive rats
E. H. Boussairi, J. Sacquet, D. Benzoni and J. Sassard

689 Crossover comparison between the depressor effects of low and high work-rate exercise in mild hypertension
E. Tashiro, S. Miura, M. Koga, M. Sasaguri, M. Ideishi, M. Ikeda, H. Tanaka, M. Shindo and K. Arakawa

697 The marine natural product 3,5-dibromo-2-(2,4-dibromo-phenoxy)phenol, inhibits contractile activity in the guinea-pig ileum
L. J. Bussau, A. A. Beveridge, R. Nadeson and A. P. Anderson

705 Sufentanil and alfentanil cause vasorelaxation by mechanisms independent of the endothelium
F. Karasawa, V. Iwanov and R. F. W. Moulds

713 Inhibitory effect of octopamine on the release of endogenous acetylcholine from isolated myenteric synaptosomes of guinea-pig
S-S. Chang and J-T. Cheng

723 Perfusion pressure and transmural flow distribution in the left ventricles of isolated rat hearts
A. Walland, H. Weihs and E. Mutschler

Technical Issues

731 Methodological evaluation of indirect calorimetry data in lean and obese rats
I. Rafecas, M. Esteve, J-A. Fernandez-Lopez, X. Remesar and M. Alemany

743 **Notices**

NUMBER 12, DECEMBER 1993

Review

745 Selectivity of calcium antagonist drugs on vascular smooth muscle
R. M. Wadsworth

Original Papers

753 Respiratory alterations with intrapericardial procaine in the conscious rabbit
L. B. Bell, L. M. Quandt, K. P. O'Hagan, S. W. Mittelstadt and P. S. Clifford

763 Effect of dietary sodium chloride on the development of renal glomerular and vascular lesions in hypertensive rats
D. T. Liu, I. Birchall, P. Kincaid-Smith and J. A. Whitworth

773 Endothelium-derived relaxing factor, hypertension and chronic parathyroidectomy in spontaneously hypertensive and Wistar-Kyoto rats
N. Boulebda, B. Van Overloop and A. Gairard

787 Effects of bradykinin on [^{3}H]-norepinephrine release in rat hypothalamus
K. Tsuda, S. Tsuda, M. Goldstein, I. Nishio and Y. Masuyama

793 Differential activation of adrenoceptor subtypes by noradrenaline applied from the intimal or adventitial surfaces of rat isolated tail artery
M. A. S. Rajanayagam and M. J. Rand

801 Summary of 1993 WHO/ISH guidelines for the management of mild hypertension: Memorandum from a WHO/ISH meeting
Guidelines Sub-Committee of WHO/ISH Mild Hypertension Liaison Committee

809 Letters to the Editor

811 Corrigendum
